

Develop Africa Inc. was birthed out of a response to crucial needs in Africa. *Develop Africa* seeks to bridge the **development deficit gap** posed by the continent's long years of mismanagement and rule. *Develop Africa's* strategic mandate is to raise a new generation of African leaders by focusing on the **human capital** aspect of development.

Our **strategic mandate** is focused on the following key components:

1. Literacy and Transformational Education
2. Youth Empowerment
3. Leadership Training
4. Microfinance and Business Training
5. Strategic Empowerment Skills Training
6. Sustainable Development

Mission: Possible

The mission of *Develop Africa* is to facilitate and establish **meaningful** and **sustainable development** in Africa through **capacity building** and **transformational education**. Our premise is based on the notion that in order to change one's personal, national or organizational status there must necessarily be a **"change in the thinking and processing pattern of the mind."**

Through training, scholarship, investment and partnerships with non-profits / NGO's *Develop Africa* is committed to developing Africa's most valuable resource (people) through the promotion of transformational education, resource development, investment training and strategic empowerment. With a focus on resource and human development, *Develop Africa* is dedicated to effective approaches to address the problems of 3rd world/developing nations in the area of education and resource development.

"... human resource development is the key to improving nation building capacity in Africa."

Project Snapshot:

1. Education Support Programs:

Millions of children do not have access to a decent education that will enable them to develop to their full potential.

Our programs help address this by providing books, school supplies, teaching supplies and scholarships.

2. Microfinance and Business Development Support.

This project empowers small businesses through financial loans and business training. The complete support enables them to move from making barely enough to meet their basic needs ("living from hand to mouth") to a point where they provide employment and contribute to national development.

3. Child Sponsorship:

Sponsored children receive education assistance, nourishing meals and opportunities to develop and learn.

This training opens the door of opportunity to the unemployed to acquire these life skills, become gainfully employed or to start their own businesses.

5. Computers For Africa:

Thousands of school and college students in Africa do not have ready access to a computer. Project contributes to

closing the technology gap by providing a computer lab to schools in Africa.

6. Basic Computer Training:

This project provides basic training in computer use and computer software such as office productivity tools etc. The training provides an important foundation / skill facilitating further development, access to resources etc.

7. Health Support:

This program addresses crucial health-related issues such as malaria and nutrition —by providing mosquito nets and vitamin supplements.

**"What I know for sure is that what you give comes back to you."
Oprah Winfrey**

How You Can Help

1. **Donate money:** You can do so online or by sending a check. We welcome your recurring donations that would help us do even more.
2. **Donate specific items needed for our projects:**
 - Children's books and school supplies
 - Computers (three years old or newer)
3. **Donate resources in kind:** We have teamed up with the Vehicle Donation Processing Center enabling us to accept the following items cars, trucks, motorcycles, boats, recreational vehicles, campers and more. Vehicles received will be sold and funds used towards our programs. For more information, please call toll-free 888-706-8575 or visit www.donatecarusa.com. Be sure to specify that your vehicle donation is for *Develop Africa*.

Other gifts in kind are welcome. Please contact us.
4. **Volunteer:** We need help on an on-going basis with a range of support and development tasks such as fund-raising, administration, project implementation etc.

Come be a part of history, with us...
